Thirumalai E

Full Stack Web Developer

PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer with 6 months of internship experience in Node.js development. Proficient in the MERN stack, adept at crafting scalable applications. Collaborative and innovative, with strong problem-solving and communication skills.

PROJECTS

1. Goal Setter App | 🌐 | 📱

JavaScript | React | Redux | Git | Node.js | Express.js |
MongoDB | RESTful APIs | HTML5 | CSS3 |

Responsive Web Design

- Developed an online Todo Goal Setter application with user registration, authentication, and CRUD operations for todo goals
- Designed and implemented the front-end user interface, ensuring a responsive web design
- Created and managed user profiles, todo goals, handled exceptions, validations, and maintained the GitHub repository

2. Movies App | 🌐 | 📱

JavaScript | React | Redux | Git | HTML5 | CSS3 |

Responsive Web Design

- Crafted an individual project, the Movies App, providing users with a convenient platform to browse and search for movies
- Enabled users to search and view movie data by movie name, enhancing the overall user experience

WORK EXPERIENCE

EcFile Solutions Pvt. Ltd., Chennai

Node.js Developer Intern

June 2023-present

Job responsibilities:

- Contributed to building robust backend features for product development, ensuring seamless integration and functionality.
- Collaborated in designing and optimizing database structures, enhancing overall system efficiency and data retrieval processes.
- Developed and maintained APIs, employing industry-best practices to ensure secure and scalable communication between front-end and back-end systems.
- Implemented cutting-edge technologies to enhance product performance, staying abreast of industry trends and continuously improving coding standards.
